

FOR IMMEDIATE RELEASE

Upcoming Construction Project to Impact Foot and Traffic Access

Westshore Parks and Recreation September 27, 2023 — In the interest of providing our valued patrons with timely information, we would like to inform you of an upcoming construction project scheduled to commence in the first week of October. Over the next two months, we will be undergoing essential renovations as a contractor replaces the roof membrane on our pool and surrounding space.

Key Details:

1. **Caution Zones:** During the construction period, there will be designated caution zones where materials will be collected for removal. We kindly ask all visitors to exercise caution and adhere to safety guidelines when approaching these areas.
2. **Delivery Trucks:** Periodically, delivery trucks will be utilizing a portion of our parking lot space to facilitate the transportation of construction materials. While this may impact parking availability, we will make every effort to minimize inconvenience.
3. **Back Road Closure:** One significant change to note is the temporary closure of the back road. This measure is necessary to ensure the safe removal of the existing roof membrane. Traffic will be restricted from moving through this area for the duration of this phase. Please plan your routes accordingly.

Programs and Facility Use: We want to reassure all our patrons that, despite the construction, there will be no disruptions to our programs or facility use. We remain committed to providing a seamless experience during this renovation period.

We understand that this construction may cause some inconvenience, and we sincerely appreciate your patience and cooperation as we work to enhance our facilities for your benefit. The safety of our visitors is our top priority, and all necessary precautions will be taken to ensure a smooth and secure construction process.

If you have any questions or require further information about the upcoming construction project, please do not hesitate to contact Ron Dietrich at 250-474-8602 or via email at rdietrich@wspr.ca.

We look forward to your continued support and understanding as we strive to improve our facility for your enjoyment. Thank you for choosing us as your recreational destination.

The map below shows areas currently being affected within the next two weeks. The detail shows yellow lines indicating the closed area. This still allows for parking on either side of the Neighborhood Cottage.
